Soldiers Speak Out

Soldiers Speak Out is a powerful, first-hand testament to the reality of the military experience, told entirely in the words of American veterans who have been to war and now oppose it.

This half-hour documentary sheds light on the growing and courageous anti-war and anti-occupation movement within the military and military families. It serves as a counter-recruitment and organizing tool for veterans, activists, schools, and organizations, providing a sober view of the war in Iraq and an important counterpoint to the "stay the course" rhetoric of the Bush administration
